

September 30, 1982

*On October 1, 1982, our company will begin the "Dawn of a New Disney Era". Epcot Center has become a reality after many years of dreaming and imagineering. The opening celebrations will reflect the dedication of time and personal involvement we all, in our own capacities, have committed to this exciting project.*

*Walt Disney founded a company where there are no bounds on creativity. Walt described us well in saying:*

*"We keep moving forward opening new doors and doing new things because we are curious . . . and curiosity keeps leading us down new paths. We are always exploring and experimenting. We call it imagineering, the blending of creative imagination with technical knowhow."*

*We all have been part of developing WALT DISNEY WORLD into an Experimental Prototype Community of Tomorrow and Walt would be very proud of what his organization has accomplished. Thank you for your support and dedication which has enabled WALT DISNEY WORLD to become known throughout the world. I hope you will enjoy the enclosed one-of-a-kind medallion in commemoration of the opening of Epcot Center.*

*On October 1, no matter where you are or what you are doing, you are an important part of Walt Disney Productions. The opening of Epcot Center is just the beginning. There are still dreams to dream and many dreams to bring into reality; the future is now up to us.*

Sincerely,

Dick Nunis
